May Be Declared At Army Schools

President's Proclamation May Close Saloons Within Half Mile of Colleges

Many Places Affected

War Department Asks for Ruling as to Scope of Order Before Acting

(Special Dispatch to The Tribune)

WASHINGTON, Sept. 27 .- Half-mile dry zones and ten-mile vice zones may be ordered around every institution in which student' army training corps will be located if the President's proclamation establishing liquor and vice zones around army camps is declared to apply to the four hundred schools where draftees' will begin their miliary-academic studies on October 1.

The War Department soon will ask the Department of Justice to make a ruling on the scope of the President's proclamation, with particular reference army schools. If the presence of student soldiers in the institutions is declared by the Attorney General to constitute the schools as army camps the department will be authorized to close every saloon within a radius of half a mile and prohibit disorderly houses within ten miles.

An affirmative ruling will have the effect of making large parts of all the principal cities of the country "dry" after October 1, the date set for the induction into the military service of all eighteen to nineteen-vear-old stu-

donts.

The schools effected in New York and Brooklyn follow:
Fordham University, College of Dental and Oral Surgery of New York, New York University, Columbia University, New York Homeopathic Medical College, Manhattan College, College of the City of New York, the Long Island College Hospital, Brooklyn Polytechnic Institute, Pratt Institute, St. John's ollege and St. Francis College, Other schools in New York State where students will be trained include the following:

the following:
Hamilton College, Clinton; Syracuse
University, Syracuse; University of
Buffalo, Buffalo; Colgate University,
Hamilton; Rensselaer Polytechnic In-Hamilton: Rensselaer Polytechnic Institute, Troy; St. Lawrence University, Canton; University of Rochester, Rochester; Canisius College, Buffalo; Cornell University, Ithaca; Union College, Schenectady; St. Bonaventure College, Allegheny; Alfred University, Alfred; Hobart College, Geneva; Clarkson College of Technology, Potsdam, and New York State College, Albany.

War Departament officials to-day were inclined to believe that the Presi-dent's proclemataion was not intended to include schools which are used for

dent's proclamataion was not intended to include schools which are used for army purposes.

The Commission on Training Camp Activities, however, has encountered many difficulties in properly safeguarding the morals of soldiers in camps where large cities are within easy access, and some authority may be sought that would empower the War Department to immediataely clamp down the lid on any community where vice or saloons are permitted to operate without restriction.

The ecommission will expect every city where schools are located to clean up every undesirable house and to require the saloons to be operated in a manner thata will not make them places of temptation for youths in uniform. The commission is prepared to send inspectors into every city having institutions in which students will be trained and personally see that the environment is clean and not such as would tend to destroy the morals of the soldiers.

Dry and Vice Zones Slacker Money Useless If War Is Not Won, Wilson Appeal Says

> DRESIDENT WILSON has sent an appeal to the people of America asking for liberal subscriptions to the Fourth Liberty Loan. The letter follows:

The White House, Washington.

"Again the government comes to the people of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberation of the world may be prosecuted with ever-increasing vigor to a victorious conclusion.

"And it makes the appeal with the greatest confidence, because it knows that every day it is becoming clearer and clearer to thinking men throughout the nation that the winning of the war is an essential investment. The money that is held back now will be of little use or value if the war is not won and the selfish masters of Germany are permitted to dictate what America may and may not do.

"Men in America, besides, have from the first until now dedicated both their lives and their fortunes to the vindication and maintenance of the great principles and objects for which our government was set up. They will not fail now to show

for which our government was set up. They will not fail now to show the world for what their wealth was intended, "WOODROW WILSON."

Deputy Sheriffs Eisenstein and Coyle on a commitment signed by Justice Van Siclen because of their failure to, return a \$250 engagement ring which Cohen gave Miss Heller and demanded back when he called off the engagement to enlist.

Cohen sued to get back his diamond ring. Judgment was taken, and Miss Heller was examined as to the whereabouts of the ring. She said she gave it to her sister, Mrs. Halpert. The latter, when examined, said the ring was lost during a fire in her home.

Justice Faber gave the sisters three days in which to make restitution. They failed, and the issuance of the commitment followed. The judgment, with costs and dispursements, now amounts to \$390. Miss Heller and Mrs. Halpert must stay in jail until they Halpert must stay in jail until they pay that amount.

What is Your "Jonah" Word?

Nearly every one has some special word which he mispronounces. Have you? The writer always tries to avold the word "plebeian," through an absurd desire to put the accent on the first syllable, as in "plebiscite."

A laugh went round a room once when a young man referred to a ship's "bo." and a woman debating came to grief over the word "epitome." to which she gave but three syllables instead of its rightful four.

But how about the governess who told her little pupils all about the "aborijeens" of Australia? The writer was one of the little pupils, and it made an indelible impression. "Jejune" is always tricky. "Aspirant" is worrying, too, until you learn that the accent may be on the first or the second syllable.

Of course, you know how to pro-What Is Your "Jonah" Word?
